# Road Conditions Report

Bevan Klein  
Manager Operations

Please Note:

- The road conditions outlined in this report have been compiled from the most recent on the ground advice. Whilst care has been taken to ensure these reports are accurate at the time of publication, road conditions can be subject to rapid change and information is updated as soon as it becomes available. It is possible for some road conditions to remain unchanged for several days or weeks.
- Exercise extreme caution at all floodways and river crossings and do not drive into water of unknown depth and current.
- Conditions can vary rapidly and 4WD is recommended on all gravel roads.
- Roads will be slippery and unsuitable for travel on after significant rainfall.
- The towing of trailers or caravans on unsealed roads over the Wet Season is not recommended.
- Be aware of stock on or near the road.
- Approach and drive slowly through road works and past maintenance graders to avoid vehicle damage.

The Shire of East Pilbara would also like to remind people travelling in the Pilbara to notify someone responsible of your travel plans before departing.
