This statement is to be read in conjunction with the accompanying notes.

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other formal and statutory pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates

The preparation of the budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 16 to this budget document.

(b) 2016/17 Actual Balances

Balances shown in this budget as 2016/17 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

(c) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(d) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

(d) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

(e) Forecast fair value adjustments

All fair value adjustments relating to re-measurement of financial assets at fair value through profit and loss (if any) and changes to revaluation of non-current assets are impacted upon by external forces and not able to be reliably estimated at the time of budget adoption.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Forecast fair value adjustments (continued)

Fair value adjustments relating to the re-measurement of financial assets at fair value through profit and loss will be assessed at the time they occur with compensating budget amendments made as necessary.

It is anticipated, in all instances, any changes upon revaluation of non-current assets will relate to non-cash transaction and as such, have no impact on this budget document.

(g) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(h) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a Gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

(i) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of employees.

All funds to which the Council contributes are defined contribution plans.

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts, if they exist, are shown as short term borrowings in current liabilities in the statement of financial position.

(k) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(I) Inventories

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Held for re-sale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(m) Fixed Assets

Each class of fixed assets within property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory requirements to revalue non-current assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory.

During the year ended 30 June 2013 the Shire of East Pilbara commenced the process adopting fair value in accordance with the Regulations.

Whilst the amendments initially allowed for a phasing in of fair value in relation of fixed assets over three years, as at 30 June 2015 all non-current assets were carried at fair value in accordance with the requirements.

Thereafter, each asset class must be revalued in accordance with the regulatory framework established and the Shire of East Pilbara revalues its asset classes in accordance with this mandatory timetable.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Fixed Assets (Continued)

approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Major depreciation periods used for each class of depreciable asset are:

Non-Infrastructure Assets

Non-Infrastructure Assets will be recognised as items within Councils Asset Register when their value exceeds the following amounts, dependent upon asset class: -

Land	nil
Buildings	nil
Furniture & Equipment	\$1,000
Computer Equipment & Software	\$1,000
Plant & Equipment	\$1,500
Tools	\$1,500

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Fixed Assets (Continued)

Depreciation (Continued)

Major depreciation periods used for each class of depreciable asset are:

Buildings	40 years
Computer Equipment & Software	3 years
Plant and Equipment	3 to 10 years
Tools	3 years
Furniture and Equipment	5 years

Infrastructure Assets

Infrastructure assets are those amenities, structures or facilities which assist the municipality in providing services to the community and may have the following characteristics:

- a long life;

- require substantial capital outlays;
- do not necessarily have a realisable value;
- usually a fixture not always readily visible or noticeable;
- consist of a number of components.

Infrastructure assets are capitalised if the threshold value exceeds \$5,000 and are depreciated on a straight-line basis over their useful lives as follows: -

75 years
20 years
50 years
50 years
25 years
50 years
20 years
20 years
50 years
50 years
50 years
15 years
25 years
50 years
Nil
12 years
25 years
10 years
20 years
Nil

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation Techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Fair Value of Assets and Liabilities (Continued) Valuation Techniques (Continued)

The valuation technique selected by the Council are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use price and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The mandatory measurement framework imposed by the Local Government (financial Management) Regulations requires, as a minimum, all assets to be revalued at least every three years. Relevant disclosures, in accordance with the requirements of Australian Accounting Standards have been made in the budget as necessary.

(o) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Financial Instruments (Continued)

Classification and Subsequent Measurement (Continued)

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit and loss

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments. They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

(v) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Financial Instruments (Continued)

Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

De-recognition

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(p) Impairment of Assets

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Impairment of Assets (Continued)

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2018.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

(q) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(r) Employee Benefits

Short-Term Employee Benefits

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other Long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees.

Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as noncurrent provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

(t) Provisions

Provisions are recognised when the Council has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(u) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Council's intentions to release for sale.

2. REVENUES AND EXPENSES

(b) Statement of Objectives

In order to discharge its responsibilities to the community, the Shire has developed a set of community based objectives. These objectives have been established both on an overall basis, reflected by the Shire's Community Vision, and for each of its broad activities/programs.

COMMUNITY VISION

The Shire of East Pilbara is dedicated to provide high quality service to the community through the provision of local government services achieved by the following service oriented functions:

GENERAL PURPOSE FUNDING

Objective:

To collect revenue to allow for the provision of services.

Activities:

Rates, general purpose government grants, normalisation grants and unrestricted interest revenue.

GOVERNANCE

Objective:

To provide a decision making process for the efficient allocation of scarce resources.

Activities:

Members of Council, general governance including administration, finance and other corporate services, computer administration and community liaison.

LAW, ORDER AND PUBLIC SAFETY

Objective:

To provide services to help ensure a safer and environmentally conscious community. **Activities:**

Supervision of local laws, fire prevention and emergency services, and animal control.

HEALTH

Objective:

To provide an operational framework for environmental and community health.

Activities:

Maintenance of infant health clinics, health inspection services, food and water quality control, immunisation and health education.

EDUCATION AND WELFARE

Objective:

To provide services to disadvantaged persons, the elderly, children and youth.

Activities:

Community services, grants and contributions to community groups and sponsored support of community aged care.

HOUSING

Objective:

To provide and maintain staff and elderly residents' housing.

Activities:

Aged persons housing and maintenance of staff and leased properties.

COMMUNITY AMENITIES

Objective:

To provide services required by the community.

Activities:

Rubbish collection services, maintenance of storm water drainage, maintenance of cemeteries, maintenance of the Newman Sewerage Farm and administration of the town planning scheme.

RECREATION AND CULTURE

Objective:

To establish and effectively manage infrastructure and resource which will help the social wellbeing of the community.

Activities:

Maintenance of public halls, Newman and Marble Bar Aquatic Centres, Newman Recreation Centre, public parks and gardens, libraries and recreation services.

2. REVENUES AND EXPENSES (CONTINUED)

(b) Statement of Objectives (Continued)

TRANSPORT

Objective:

To provide safe, effective and efficient transport services to the community.

Activities:

Construction and maintenance of roads, footpaths, drainage works, parking facilities, traffic signs, street lighting, depot operations, street cleaning and operation of the Newman airport and Marble Bar and Nullagine airstrips.

ECONOMIC SERVICES

Objective:

To help promote the Shire and its economic wellbeing.

Activities:

Tourism support, building services and controls, caravan parks and bus services.

OTHER PROPERTY AND SERVICES

Objective:

To monitor and control Councils overheads operating accounts.

Activities:

Private works carried out by Council and allocations to works and services of all salaries and wages, overheads and plant costs incurred as well as miscellaneous unclassified functions.

All of the above Reserve Accounts are supported by monies held in financial institutions.

6. **RESERVES (CONTINUED)**

In accordance with Council resolutions in relation to each Reserve Account, the purposes for which the funds are set aside are as follows:

Alice Springs Road

To help maintain the road link to Alice Springs from Marble Bar to the Northern Territory border.

Heavy Road Plant

To fund the purchase of heavy plant that is needed for the operations of the Shire.

Cape Keraudren Development

For the maintenance, development & enhancement of the Cape Keraudren Reserve.

Computer Technology

For the replacement, enhancement and upgrading of computer hardware and software.

Newman Recreation Centre Maintenance

For the upgrading and enhancement and future extensions of the Newman Recreation Centre.

Newman Sewerage Plant

For the maintenance, upgrading and replacement of all Council plant and equipment associated with the treatment of sewage and the distribution of the treated product.

Newman Airport

For the upgrading, maintenance and enhancement of the Newman Airport facilities.

Oval Lights Maintenance

To maintain and upgrade the lights at Capricorn Oval, Newman.

Long Service Leave

To provide for the payment of future leave entitlements to staff.

Recreation Facilities Maintenance

For the upgrading and enhancement of recreation facilities.

Staff Housing

For the upgrading and maintenance of staff housing assets.

Newman Town Centre Revitalisation

For the revitalisation, upgrade and maintenance of the Newman Town Centre Precinct.

Waste Management

For the development, maintenance & enhancement of waste management facilities.

Public Art

For the development, maintenance & enhancement of Public Art within the three towns of the East Pilbara Shire.

6. **RESERVES (CONTINUED)**

Town Centre Public Toilet

For the development, maintenance & enhancement of Town Centre Public Toilets.

Annual Leave

To provide for the payment of annual leave entitlements to staff.

Royalties for Regions – Pilbara Revitalisation

To hold and utilise the allocation of the Royalties for Regions – Pilbara Revitalisation funds in accordance with the funding legislation.

Newman House

For the maintenance, upgrading and replacement of Newman House.

Newman Tomorrow Project Maintenance

For the maintenance and repairs of all Newman Tomorrow projects funded by BHP Billiton Iron Ore.

Public Building Maintenance

For the maintenance, upgrading and replacement of all Council Public Buildings.

Martumili Operations

To hold and utilise the surplus funds from the Martumili Artist operations.

Martumili Infrastructure

For the maintenance, upgrading and replacement of Martumili Infrastructure.

Community Housing

For the maintenance, upgrading and replacement of Community Housing.

Major Infrastructure

For the development of new or replacement infrastructure with total project cost of greater than one (1) million dollars. (The reserve is not to be accessed until at least the 2020/2021 financial year.)

Funds for the establishment and growth of this reserve will initially come from the following source: - The Newman Airport Operating Account, calculated on the basis of 10% of the surplus of operating income over operating expenses minus non cash items ie depreciation.

In accordance with Section 6.36 of the Local Government Act 1995, the Shire of East Pilbara is required to publish its Objects and Reasons for implementing Differential Rates. Those objects and reasons are noted below:

OVERALL OBJECTIVE

The objective of Council's rates is to collect revenue on an equitable basis in order that services to ratepayers can be provided throughout the Shire. The rates are raised to achieve a balanced budget.

The basis for calculation of rates is the Gross Rental Values (GRV) and Unimproved Values (UV) provided for each individual property in the Shire by the Valuer General's Office. UV's for rural properties are provided every year and GRV's for residential, commercial and industrial properties are generally provided every three years.

As part of the budget process operating income and expenditure has been reviewed. This review has included projected changes to income and expenditure, efficiency measures and proposed capital works. The differential rating model directly influences Council's ability to fund it expenditure requirements in the 2017/2018 budget.

Currently Council's adopted Long Term Financial Plan includes a 4.0% rate increase for the 2017/2018 year however sound financial management means that Council can adopt a lower increase based on proposed expenditure including capital, and projected revenues. It is therefore possible to adopt a balanced budget with a 3.0% increase in the rate in the dollar across all categories.

The proposed rates in the dollar attempts to balance the need for revenue to fund essential services and capital, with the desire to minimise the impact that rates have on ratepayers. The proposed rates in the dollar will generate sufficient fund to continue to provide services and facilities at the current level and also allow for necessary renewal of assets. Limited new services and infrastructure, in line with the Community Strategic Plan, were also considered and provided where possible.

8. RATING INFORMATION (CONTINUED)

Council has determined its required rates yield after reviewing all revenue sources, expenditure and efficiency measures as part of its budget deliberations. The Rate in the Dollar applied to the valuations to determine property rates has been increased by 3% over all land uses. This ensures an equitable distribution of the required rates yield from one year to the next consistent with Council's approach in previous years.

Zoning and land use codes are stipulated by the Shire's Town Planning Scheme No 4 (TPS4) which was adopted in December 2005. In TPS4 all land outside of townsites is zoned rural (hence have UV valuations) and the land uses are mining, pastoral and special leases. The exception to this is the recent gazetting of accommodation units on some mine sites by the Department of Local Government, to allow for GRV valuations. Within the townsites the zonings include residential, industrial, town centres in Newman and Marble Bar and the transient workforce accommodation. Nullagine Townsite is classed as one zone only allowing mixed use. Townsites have GRV valuations.

GROSS RENTAL VALUE PROPERTIES

Local Governments, under section 6.36 of the Local Government Act 1995, have the power to implement differential rating to take into account certain characteristics of the rateable land. The following rate categories have been established.

	Rate in \$	Minimum
	Cents	
Gross Rental Value – Other	3.1645	\$663
Gross Rental Value – Industrial	1.5901	\$663
Gross Rental Value – Nullagine Townsite	4.4805	\$265
Gross Rental Value – Town Centre (Newman & Marble Bar)	4.4962	\$663
Gross Rental Value – Transient Workforce Accommodation	4.4962	\$663

Other

This category includes any property zoned residential or otherwise that is used in a domestic capacity as determined by Council. This rate has been increased by 3% from last year and reflects the level of rating required to raise the necessary revenue for Council to operate efficiently and provide a diverse range of services. This is the base general rate in the GRV category and has been set to maintain an equitable rate yield in comparison to past years.

Industrial

This category includes properties zoned as industrial. The rate in the dollar has been set at a lower amount to offset the relatively high valuations within this category which came about as a result of revaluations in 2008/09 when the Industrial valuations increased significantly more than other GRV properties and Council decided that to maintain the rate yield from that category plus CPI, the rate in the dollar would have to be decreased significantly. In 2012/13 the Industrial Valuations more than doubled and Council again decided, for equity and fairness, to maintain the rates yield for that category the same as others and therefore reduced the rate in the dollar again.

Townsite - Nullagine

Due to the diverse makeup of the town of Nullagine the whole of the gazetted town area has been zoned as Nullagine Town Centre. This category includes commercial, community and residential properties with the town centre zoning. This rate is set slightly higher than GRV "Other" to reflect the level of rating required to raise the necessary revenue for Council to operate efficiently and provide a diverse range of services to meet the needs of the township of Nullagine including parking public toilets and civic amenities.

8. RATING INFORMATION (CONTINUED)

Town Centre - Newman and Marble Bar

These categories include properties zoned town centre in Newman and Marble Bar. The category includes both commercial and residential properties within the town centre zoning which provides services to the town's population. This rate has been increased by 3% from last year but is set higher than GRV Other to reflect the level of rating required to raise the necessary revenue for Council to operate efficiently and provide a diverse range of services required of a functional town centre such as parking, public toilets and civic amenities.

Transient Workforce Accommodation

This category applies to properties where the land use is predominately Workforce Accommodation and has been equated to Town Centres which is where most other accommodation is offered. After a significant reduction in rates last year, 38%, this rate has been increased by 3% from last year but is set slightly higher than GRV Other to reflect the level of rating required to raise the necessary revenue for Council to operate efficiently and provide a diverse range of services, taking into account the impact this category has on the utilisation of community infrastructure, services and amenities within the Shire of East Pilbara.

UNIMPROVED VALUE PROPERTIES

UV Properties are assessed annually by Council to determine that the land is primarily undeveloped and used for rural purposes.

The following rate categories have been established.

	Rate in \$	Minimum
	Cents	
Unimproved Value – Pastoral/Special Leases	5.9121	\$230
Unimproved Value – Other Leases (AML, Mining,		
General, Petroleum, Exploration and Prospecting)	17.7505	\$230

Pastoral/Special Leases

This category includes properties zoned as agriculture or farming. The rate in the dollar has been set at a lower amount to offset the relatively high valuations within this category which came about as a result of revaluations in 2006-2007 when the Pastoral Lease valuations increased significantly more than Other Leases and then in 2010-2011 the Pastoral Lease Valuations more than doubled whereas the Other Leases only increased by around 3%. Council implemented differential rates which were more than double in the UV category in 2010-2011 and this has continued ever since. This rate in the dollar is set lower than UV Other in order to maintain equity and fairness in the rates yield for this category.

Other Leases (AML, Mining, General, Petroleum, Exploration and Prospecting)

This category includes all other leases. The rate in the dollar for this category is set higher than the UV Pastoral/Special as these assessments are serviced by East Pilbara townships when necessary and include much higher usage of airports, roads, etc. This is the base general UV rate in the dollar which has been increased by 3% from last year and is set to maintain equity and fairness in the rates yield for this category.

Minimums

Council has also established minimum rates for each land use group. These minimums may exceed the amount that would be calculated if a particular property had its valuation multiplied by the rate in the dollar for the particular land use.

9. SPECIFIED AREA RATE

No Specified Area Rates will be levied during 2017/18.

8. RATING INFORMATION (CONTINUED)

10. SERVICE CHARGES

No Service Charges will be applied in 2017/18.

11. FEES AND CHARGES

Rubbish Collection

The charge for a rubbish collection service (Community Amenities) shall be \$260 per service and applied to 2,336 properties generating a total income of \$607,400.

Sewerage Rates

Where properties in the Newman townsite have the ability to connect to the town's sewerage scheme a rate will be raised, under the Health Act, against that property for the purpose of maintaining and running the Newman Sewerage Treatment Plant.

The rate to be imposed for the 2017/18 year will be 0.7401 cents in the dollar gross rental value of the property. The total expected revenue from this rate is \$711,900.

12. RATE PAYMENT DISCOUNTS, WAIVERS & CONCESSIONS

No discount for the early payment of rates will be offered in 2017/18.

Incentives are offered for the early payment of rates in accordance with Council's Rate Payment Incentive Prize Policy, as detailed below: -

First Prize:

Shire of East Pilbara rates refund (up to a value of \$1,000.00 not including service charges)

Second Prize

Shire of East Pilbara rates refund (up to a value of \$500.00 not including service charges)

<u>Third Prize</u>

AHG Service Centre, Newman – Voucher to the value of \$500.00

Fourth Prize

AHG Service Centre, Newman – Voucher to the value of \$500.00

Fifth Prize

The Esplanade Hotel, Port Hedland – Voucher to the value of \$150.00

A total of \$9,200 rates are estimated to be written off during the year. The majority of this estimate relates to mining tenements that have lapsed and become uncollectable.

13. INTEREST CHARGES AND INSTALMENTS

(a) Interest Penalty

Interest at a rate of 8% per annum will apply for the late payment of rates if the single payment option is selected or an agreement is entered into outside of the normal instalment option. An interest rate of 4% will apply if an instalment option is selected. It is estimated that the total amount of interest to be collected in 2017/2018 will be \$65,300.

The interest penalty will accrue daily on a simple interest basis as follows: -

No instalment option

Interest shall accrue on rates outstanding for thirty-five days after the issue date (i.e. 8 September 2017). Eligible pensioners are exempt.

Instalment option taken

Interest shall accrue daily on any instalment payment that remains unpaid after the due date of that instalment and will continue to accrue until such time as that instalment is paid. Eligible pensioners are exempt.

Arrears

Interest shall begin to accrue from 1 July 2017 on all rates, including previous interest charges, which remain in arrears. Eligible pensioners are exempt.

(b) Instalments

Option 1 (Full Payment)

Full amount of rates and charges, including arrears, to be paid on or before 8 September 2017 or 35 days after the date of service, appearing on the rate notice, whichever is the later.

Option 2 (4 Instalments)

First instalment to be received on or before 8 September 2017 or 35 days after the date of service appearing on the rate notice whichever is later and including all arrears and quarter of the current rates and service charges. Second, third and fourth instalments are to be made on or before the following dates: -

2nd Due Date:	10 November 2017
3rd Due Date:	12 January 2018
4th Due Date:	16 March 2018

An administration fee of \$5.00 is payable on the second and any subsequent payments made under an instalment option to cover the cost of producing reminder notices. The total expected revenue from the imposition of this fee for 2017/18 is \$6,800.

The total revenue from the imposition of the interest and administration charge under this option is estimated at \$22,100 and is dissected as follows: -

Option 2 Details	2017/2018 Budget \$
Administration Charge Interest Charges	6,800
	22,100

Other Arrangements

An administration fee of \$50.00 is payable for any Rates Payment Agreement outside of the normal instalment option.

14. FEES AND CHARGES REVENUE
