Election Type	<b>Ordinary</b>

---

## Annabell Landy

All people have the right to tell their stories and have their voices heard. I have experience and skills to listen to the voices of those living in communities and town, to ensure these voices are heard, especially in government decision making that impacts the people of East Pilbara.

Working in the KJ Ranger program and playing a pivotal role in the leadership program, has allowed me to work in both worlds of government and local people, always representing the best interests of country and culture

Recently, I was employed for Census, engaging and working with remote communities, ensuring representation and a local voice for the future access to funding for housing and other essential services.

I want to continue to be a strong voice, representing the voices in our local community.
